Adolfo Glen's Crown Jewel. This beautiful home has been meticulously maintained and well loved. The windows are approximately 5 years new and the kitchen windows are treated with maple plantation shutters to beautifully compliment the warm maple flooring. The family room is an extension of the kitchen and has a cozy fireplace. Every bedroom closet in the house has a special California Closet organizing system installed and most have heavy mirrored doors. The downstairs bedroom is currently serving as a home office with a functional and beautiful built-in office space. Pride of ownership is apparent inside and outside of this home. The front and back yard have been professionally landscaped to include low voltage accent lighting and the garage has ample built-in overhead storage as well as side storage. The Adolfo Glen neighborhood offers fantastic neighborhood schools, a big park and there is no HOA. This home is located on a cul-de-sac street near Rancho Calleguas park.
